Click the [⊙ Settings] button on the bottom left, and you will see a pop-up window as below, where you can set the output format, output quality as well as output path:
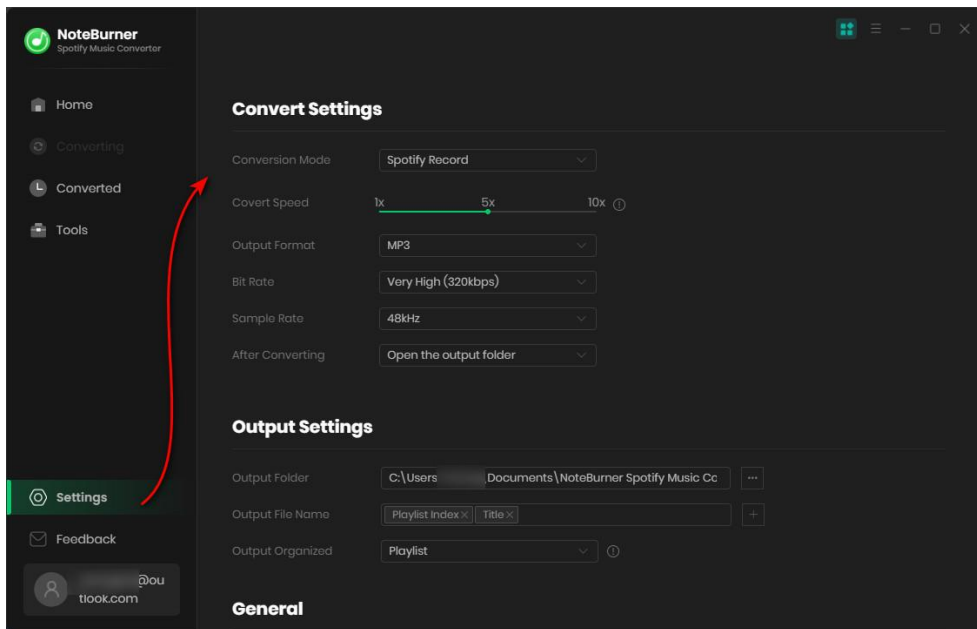

Tutorials

- Choose Conversion Mode
- Import Music Files
- Delete Music Files
- Choose Output Format
- Customize Output Path
- Convert Music Files
- Check Conversion History
- Edit ID3 Tags
- Convert Normal Audio
- Burn Spotify to CD
- Import Spotify Audio to iTunes
- Convert AA/AAX Audiobook

Choose Conversion Mode

Launch NoteBurner Spotify Music Converter, then you'll choose to downlaod songs from Spotify App or Spotify web player. It's suggsted to choose to convert songs from Spotify App, as you can get the best 320kbps output quality.
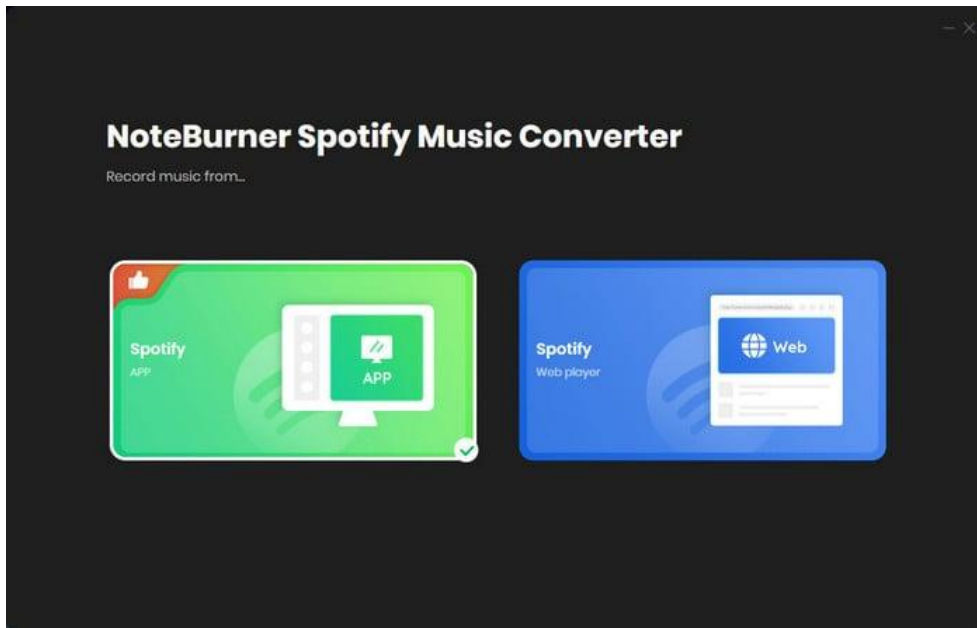

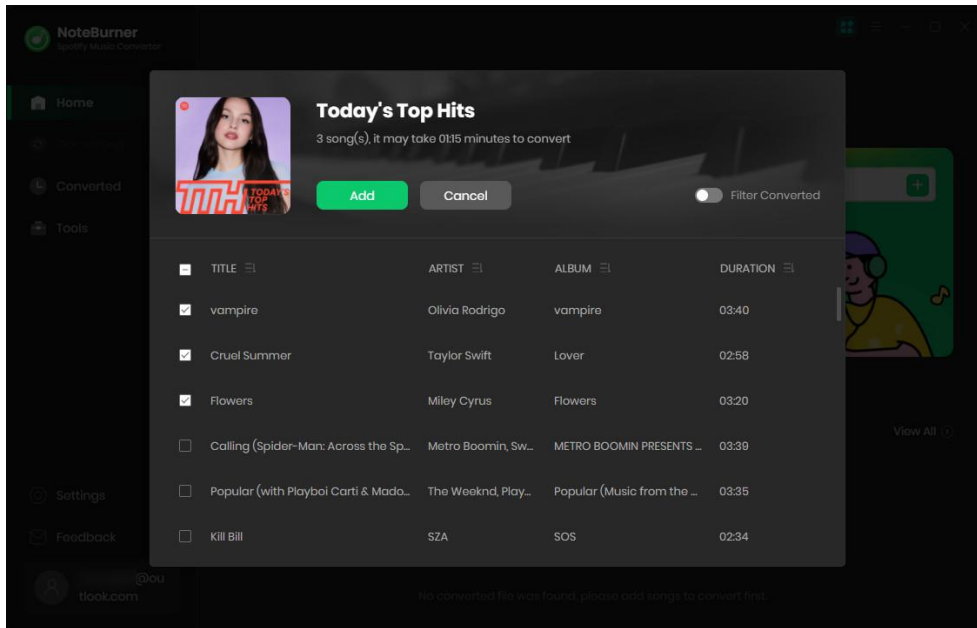

Import Music Files

Drag and drop the playlist from Spotify to NoteBurner, or you can also copy and paste the Spotify playlist link to prompt dialog box.
Delete Music Files

Select the files you want to delete and then click the ☒ button to delete the selected songs.

Choose Output Format

Click the ⊚ Settings button on the bottom left, where you can choose to convert your Spotify songs to diversified output formats, including MP3, AAC, WAV, AIFF, FLAC, or ALAC. Besides, you can adjust the output quality - Very High (320 kbps), High (256 kbps) Medium (192kbps), and Low (128 kbps) as well as the conversion mode.
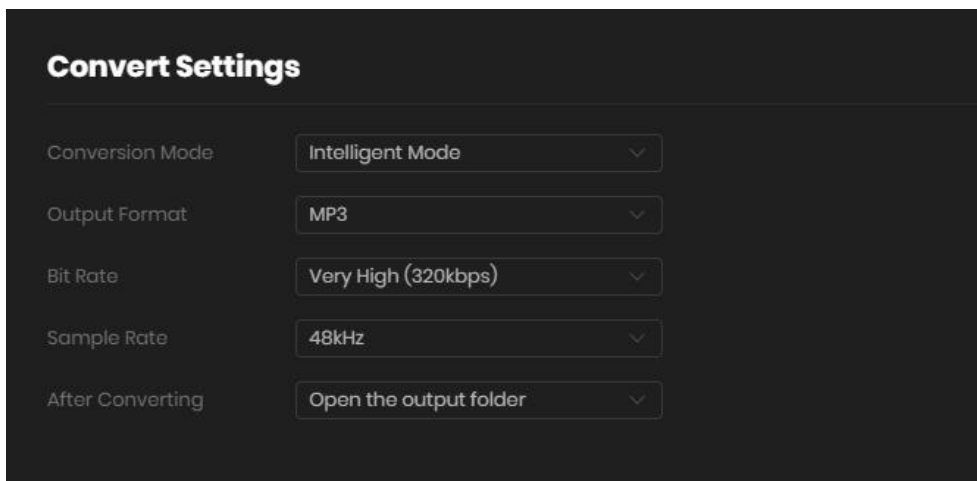

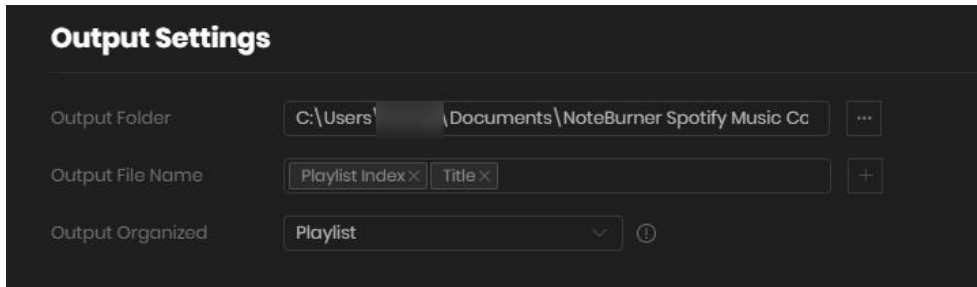

Customize Output Path

Click the [Settings] button on the bottom left. Here you can also customize the output directory and output file name for the target converted Spotify songs. Also, you can select to keep the converted files organized by Artist, Album, Artist/ Album, Album/ Artist, etc.

Output Settings

Output Folder	C:\Users\ \Documents\NoteBurner Spotify Music Co	...
Output File Name	Playlist Index × Title ×	+
Output Organized	Playlist	ⓘ

Tips:

1. Please click the [...] button to browse and choose the output path.

2. If you don't change the output path, the converted files will be saved in NoteBurner default folder: C:\Users\User Name\Documents\NoteBurner Spotify Music Converter.

Convert Music Files

Click the **"Convert"** button and the program will start the conversion. You can see the progress bar on the interface.
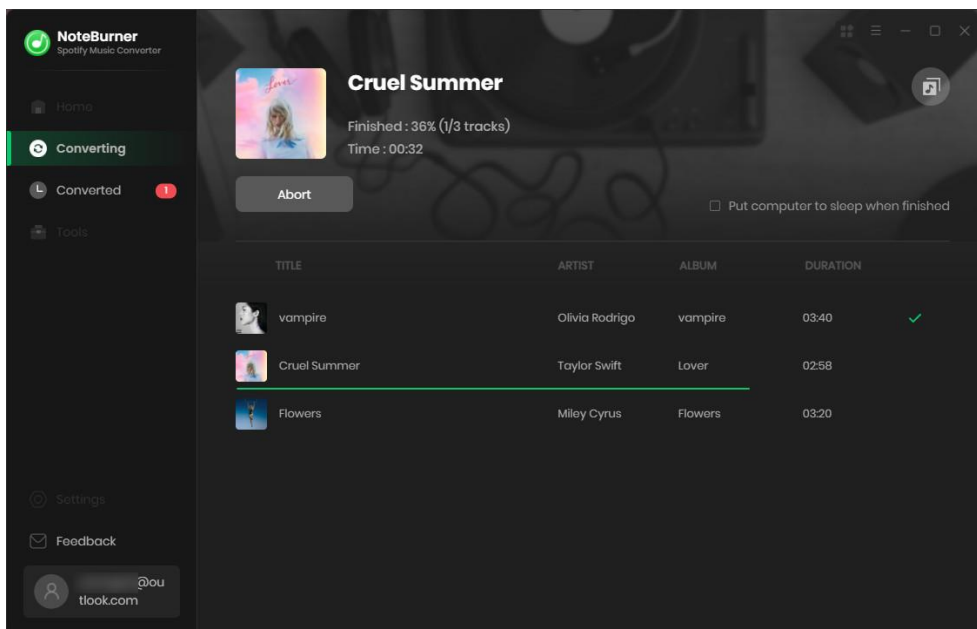

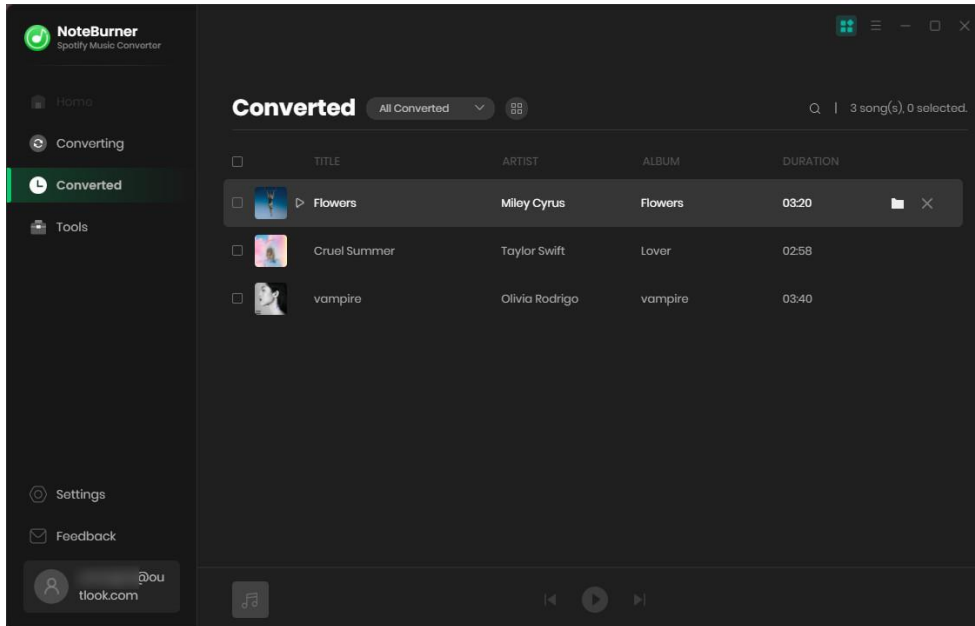

Check Conversion History

When the conversion is completed, the history records will be saved automatically. Click the **"Converted"** button on the left side and then you will see all the songs that have been converted successfully.
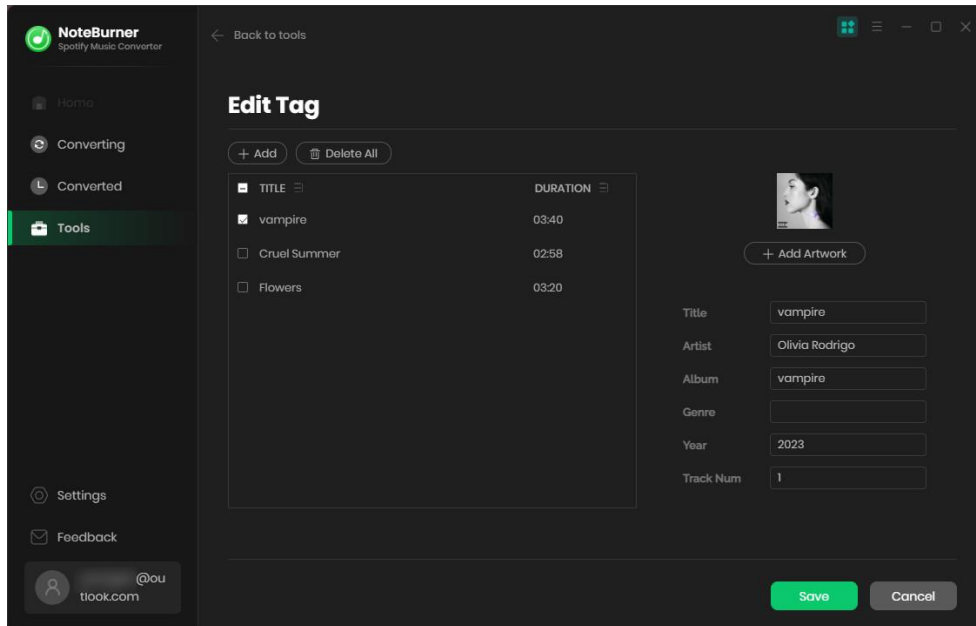

Edit ID3 Tags

The program retains the original quality of Spotify music and keeps all ID3 tags after conversion. And you can also edit any Meta information by clicking **"Tools"** >> **"Edit Tag"**.
Convert Normal Audio

Apart from Spotify music, NoteBurner Spotify Music Converter also supports to **convert the music to MP3/M4A/AAC/WAV/OGG/AIFF format**. Simply open NoteBurner, click **"Tools" >> "Format Converter"**, and then add the music from your computer to convert.
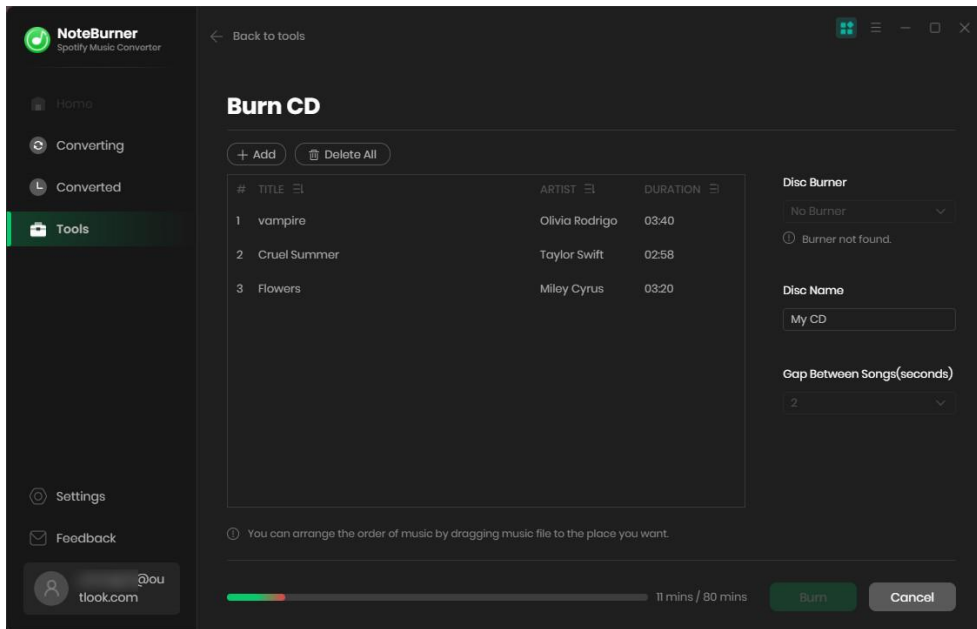

Burn Spotify to CD

NoteBurner Spotify Music Converter supports to burn converted music or local music to CD directly. Please open NoteBurner, and choose **"Tools"** >> **"Burn CD"**, a window will pop up to indicate you to add music from your computer, insert CD, and rename the CD's name. All you need is to follow the instruction and your music will be burned instantly.
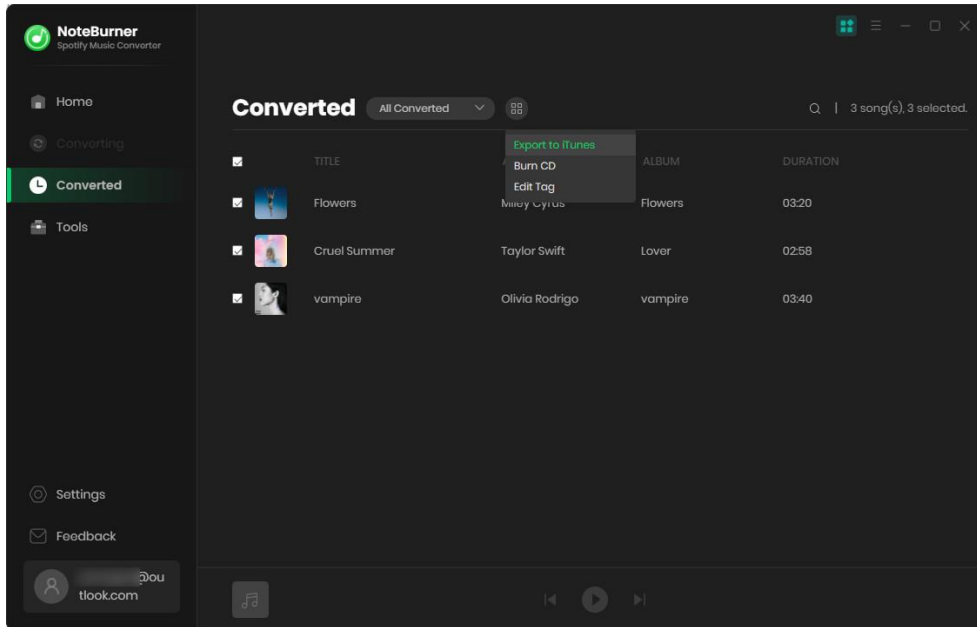

Import Spotify Audio to iTunes

After conversion, now you can import the converted Spotify music to iTunes directly. Just click the **Converted** button to open the history list. Then select the music you want to import and tap "**Export to iTunes**". The program will upload them to iTunes within a few seconds.
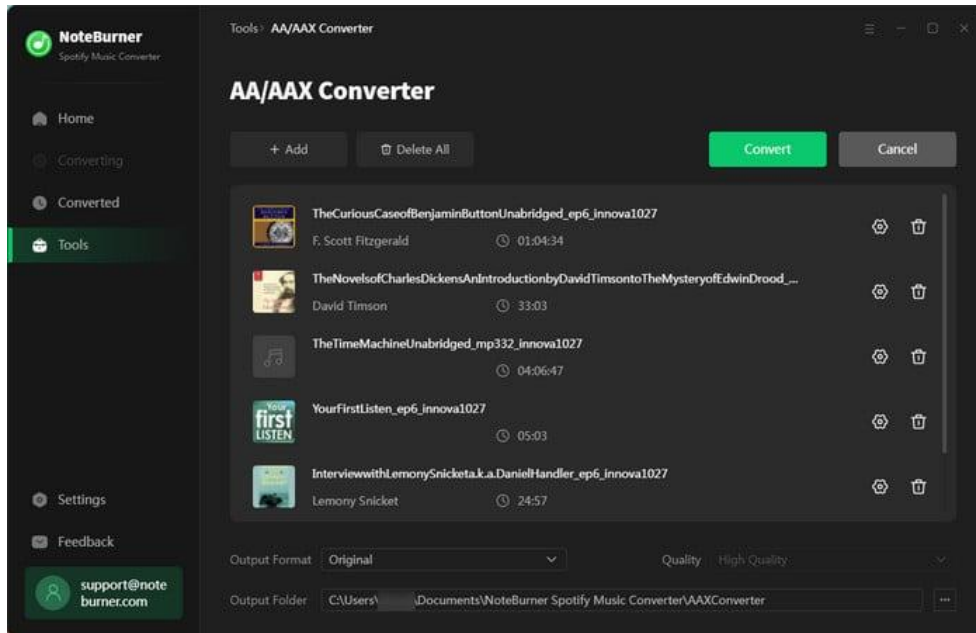

Convert AA/AAX Audiobook

If you have some local aa/aax audiobooks, just go to "Tool > AA/AAX Converter" to convert your audiobooks to other music formats.
