## Purchase & Registration

- Purchase License
- Register Tips

### Purchase NoteBurner Audio Recorder

Quick Link: To buy a license key for NoteBurner Audio Recorder, click [Here](#).

#### 1. Why should I buy NoteBurner Audio Recorder?

Put simply, NoteBurner Audio Recorder is a shareware, and the trial version has the limitation that you can only convert the first 3 minutes of each audio. After you purchase our product, you will be provided with your Email and Registration Code which will unlock the trial version limitation.

#### 2. What Benefits do we have after Registration?

- Unlimited use without any time and function restrictions.
- FREE upgrades to the updated versions of the same product released.

### Register NoteBurner Audio Recorder

**Step 1:** Launch NoteBurner Audio Recorder. Click the "Key" icon on the upper-right corner and you will see the registration window as below.

**Step 2:** Please fill the popup dialog with Email and Registration Code. The Registration Code is case sensitive. And, please do not add blank at the beginning or the end of the word. You can also copy and paste the Registration information into the registration popup dialog.

## NoteBurner Audio Recorder for Mac Tutorial

---

**Step 3:** After you finished the Registration, the limitation of the trial version will be removed.

**Notice:**

1. Make sure both the Email address and Registration Code are provided by our company after you pay the registration fee. If you have not paid, please click **Purchase** to buy online.
2. Please make sure the Email address and Registration Code you entered are completely and correctly, if not, an error message will pop up as below:

## Installation & Interface

- Converting Interface
- Menu

### Installation

To install this product, please do as the following steps:

1. Download the installation package for NoteBurner Audio Recorder from [Download page](#).
2. Double click the installation file nb-audio-recorder.dmg to start installing it on your computer.
3. Follow the instruction to finish the installation.
4. When you see a window where there is an icon of NoteBurner Audio Recorder, drag and drop the icon onto the desktop. Then you can just run the program from the desktop icon.

### Main Interface

Launch NoteBurner Audio Recorder on Mac. You will see the simple and intelligible interface of it.

## Converting Interface

After clicking the **Convert** button, you will see the converting interface like this:

## Menu

When clicking the menu bar, you will see the menu list like this:

## Tutorials

- Import Audio Files
- Delete Audio Files
- Choose Output Settings
- Customize Output Path
- Convert Audio Files
- Check History Records
- Edit ID3 Tags
- Convert Local Audio

### Import Audio Files

**Step 1:** Click the “+Add” button and you will see a pop-up window showing you all Apple Music or audiobooks in your iTunes library. You can add Apple Music files, audiobooks, or M4P audio in the pop-up window as you need.

**Step 2:** Locate and select the files you want to add, click the **OK** button to get prepared for conversion.

## Delete Audio Files

If you don't want to convert certain music, please click "X" button to remove this music before converting.

## Choose Output Settings

Click the menu bar and click the "Preferences" button or directly click the  button on the program interface, and then there will be a pop-up window which prompts you to set Output Path and Output Format (MP3, FLAC, WAV & AAC), and Output Quality.

## Customize Output Path

Click “**NoteBurner Audio Recorder > Preferences**” on the upper left of your Mac or directly click  button on the program interface, there will be a window pops up and then you can change the output path in the popup window.

**Tips:** If you don't change the output path, the converted files will be saved in NoteBurner Audio Recorder default folder.

## Convert Audio Files

After adding the Audio files and customizing output path, just click the “**Convert**” button to start the converting.

**Note:** Before converting, make sure your computer is well authorized with the same Apple ID that you used when downloading the iTunes audio.

**Warning:** Before the Status show converting progress, iTunes will be shown and hide itself in a flash, and please don't do anything with iTunes during converting in case conversion may fail by occurring an error.

## Check History Records

After conversion, you can find the converted audio files in **Converted** section on the left side.

## Edit ID3 Tags

The program retains the original quality of Apple Music and keeps all ID3 tags after conversion. And you can also edit all the important and useful Meta information by clicking "Tools >> Edit Tag".

## Convert Local Audio

Apart from Apple Music, NoteBurner Audio Recorder also supports to convert the local music to MP3/M4A/AAC/WAV/OGG format. Simply open NoteBurner, click "**Tools >> Format Converter**", and then add the music from your computer to convert.
