- [Main Interface](#)
- [Menu](#)

### Installation

To install this product, please refer to the following steps:

1. Download the latest version of NoteBurner Line Music Converter through [Download Center](#).
2. Install NoteBurner Line Music Converter on your Mac.
3. After installing, you can double-click it to launch the program.

### Main Interface

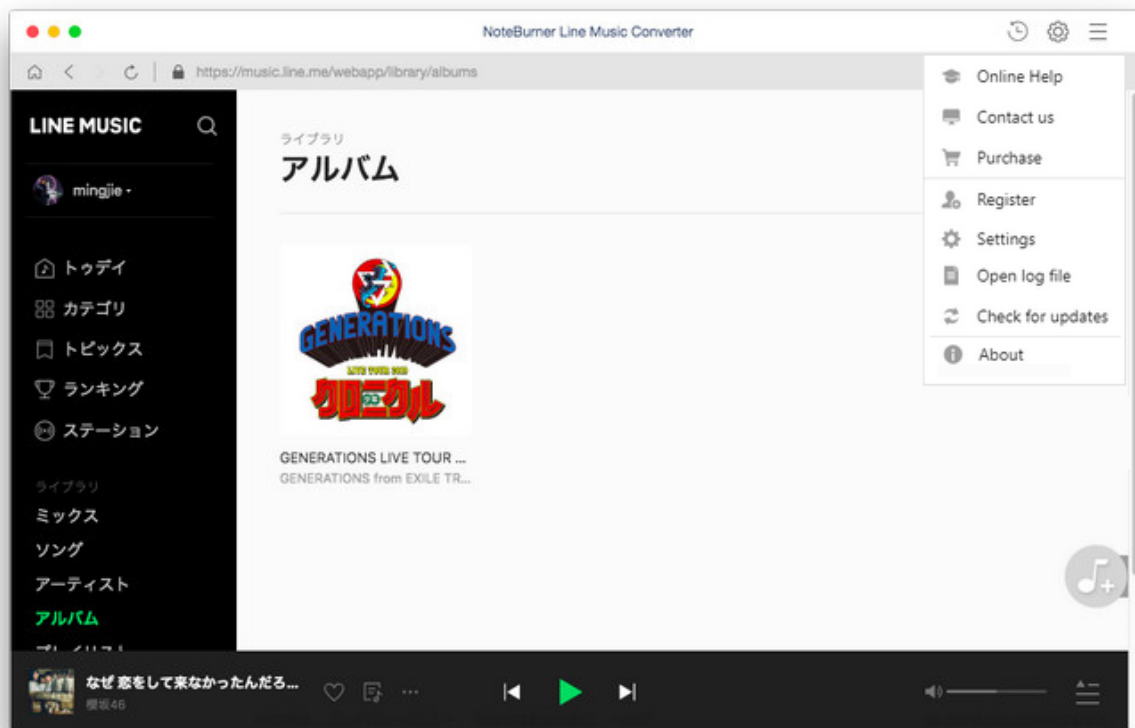

After launching NoteBurner Line Music Converter for Mac, and signing in with your Line Music account, you will see the main interface like this:

## Menu

When clicking the Menu button  on the upper right corner of the interface, you will see the menu list as the following picture. Here you can choose the language you want to use, check for updates when a new version is available, open the online-help page of NoteBurner Line Music Converter, and etc.

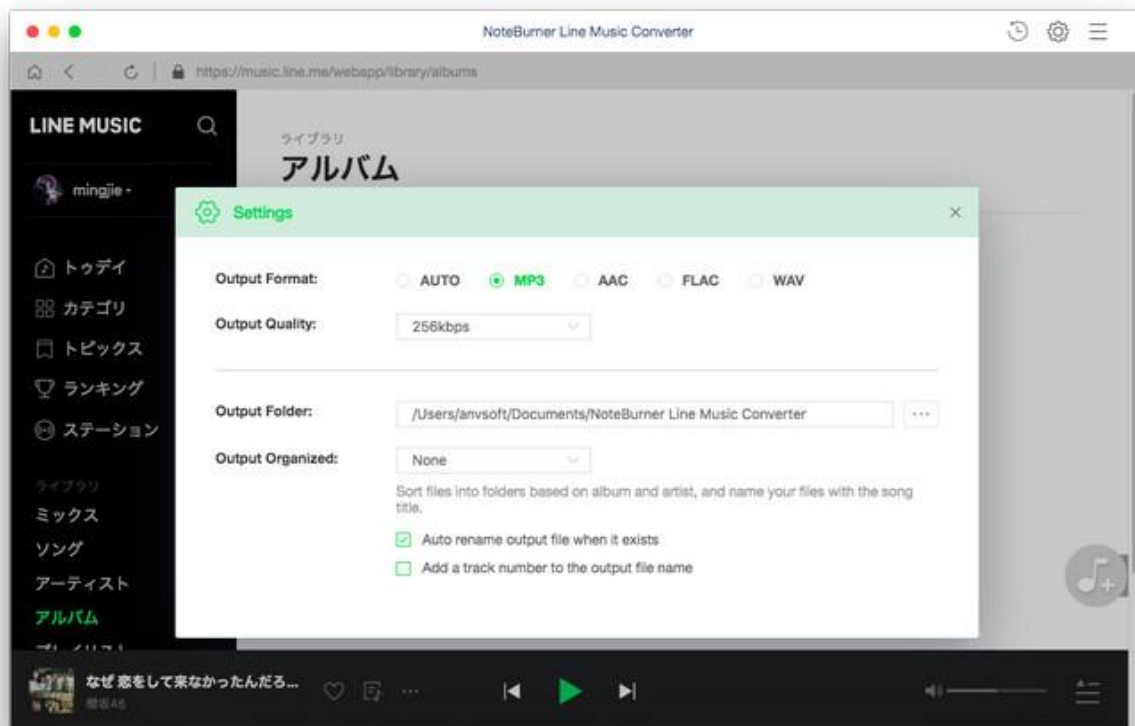

## Tutorials

- Choose Output Settings
- Import Music Files
- Convert Music Files
- Check Conversion History

### Choose Output Settings

Click the Setting icon on the upper right corner to choose the Output Format (MP3/AAC/FLAC/WAV), the Output Quality (256kbps, 192kbps, 128kbps) and Output Path. In addition, for better organizing your music library, you can save the output audio files into an organized folder like Artist, Album, Artist/Album, or Album/Artist.

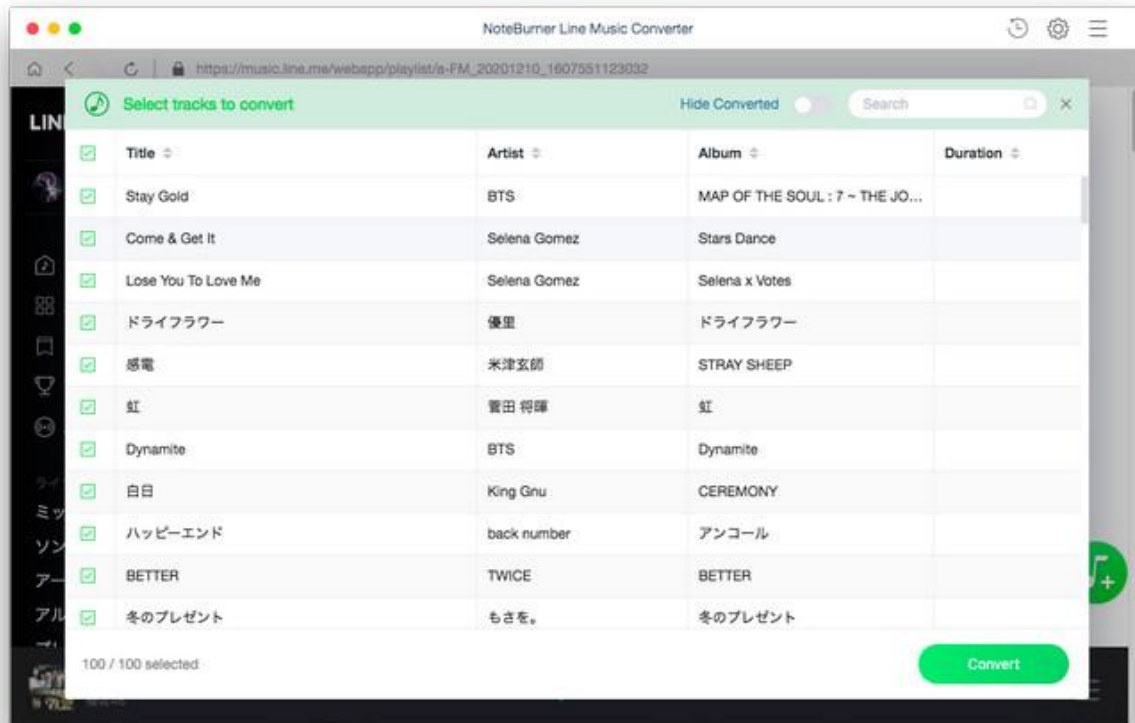

## Import Music Files

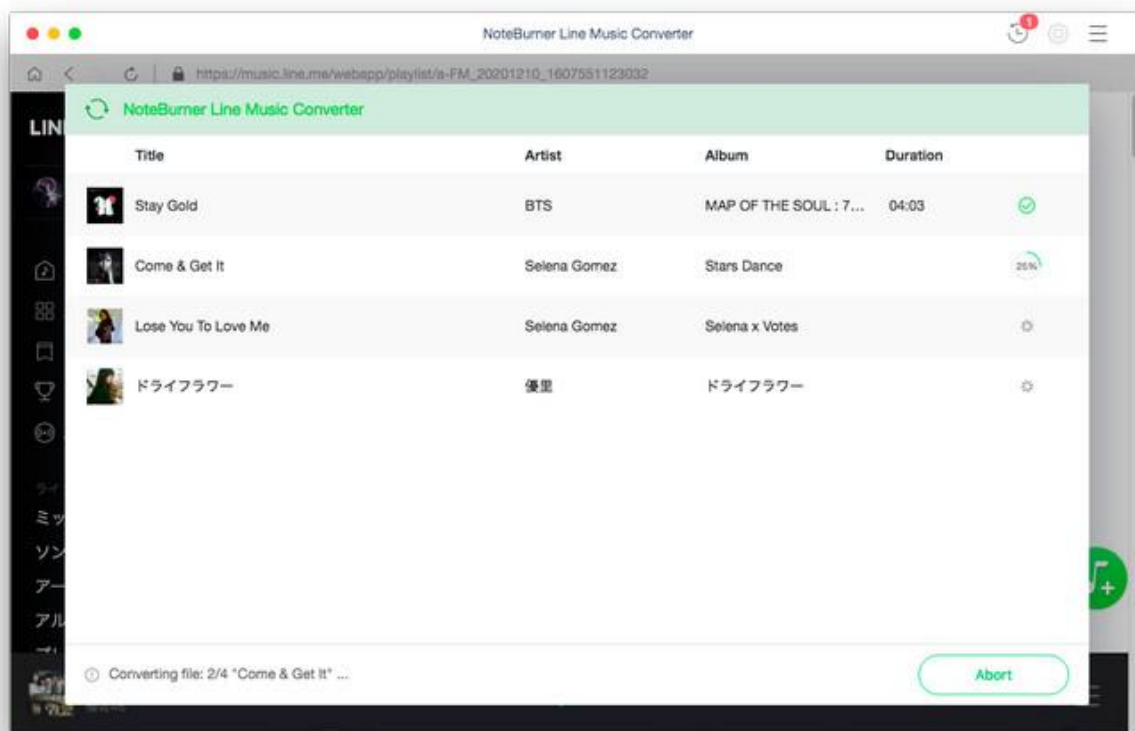

Open a playlist, artist or album, then click on the  button and select the songs that you'd like to convert from the popup window.

## Convert Music Files

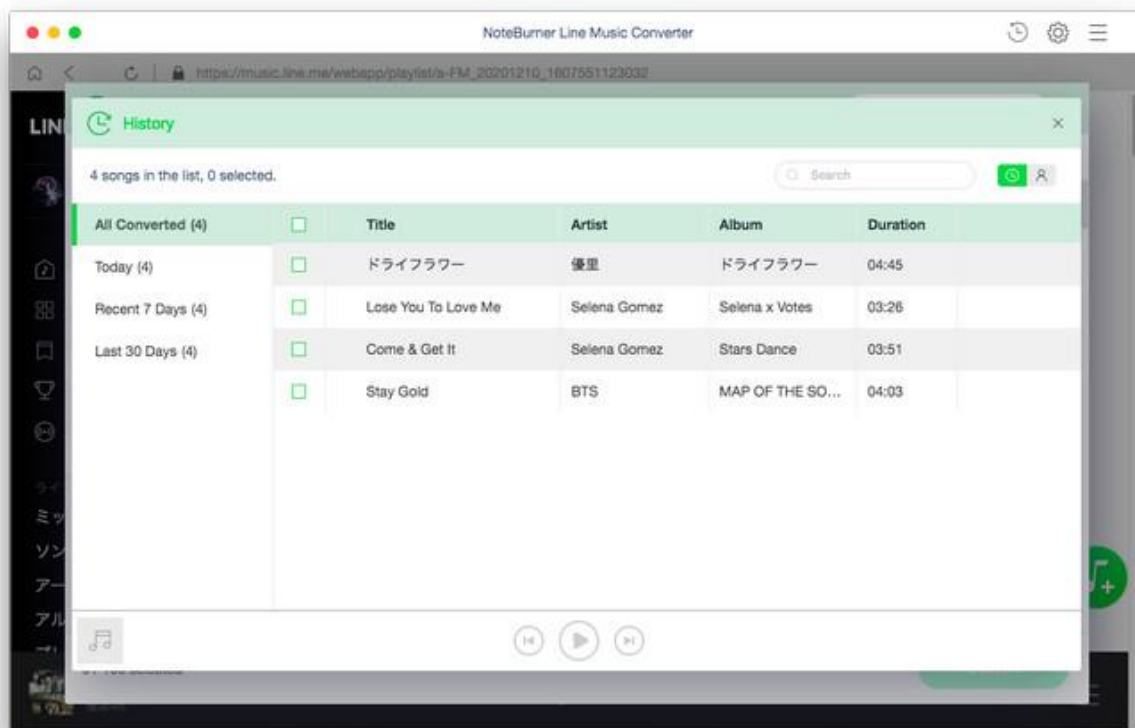

Click the **"Convert"** button to start converting the selected songs to the output format you have chosen.

## Check Conversion History

Once the conversion is done, you can find the downloaded songs by clicking  on the upper right corner or directly going to the output folder you customized in previous step.
